**EXHIBIT B**  
**FAIR ISAAC SOFTWARE SUPPORT AND MAINTENANCE POLICY**

**1. DEFINITIONS**

“**FIC**” means Fair Isaac Corporation and its subsidiaries.

“**Errors**” means persistent malfunctions, inherent within the Software, that prevent the Software from operating according to its technical documentation.

For software to be installed at locations in North America, Asia, and South America, “**Product Support Hours**” (United States) are 6:00 a.m. to 5:00 p.m. Pacific Time, Monday through Friday, excluding holidays observed by FIC in the United States. Support services will be provided from the United States.

For software to be installed at locations in Europe, Middle East, and Africa, “**Product Support Hours**” (U.K.) are 8:30 a.m. to 5:00 p.m. UK Time, Monday through Friday, excluding holidays observed by FIC in the United States. Support services will be provided from the United States.

“**Software**” means the following software product(s) that are licensed by Client:

The Fair Isaac Products listed on Exhibit A.

**2. SUPPORT AND MAINTENANCE SERVICES GENERALLY**

**2.1.** Subject to payment of the appropriate Maintenance fees by Client, and compliance by Client with the terms of the applicable license agreement, FIC agrees to provide Client with support and maintenance services for the Software as set forth in this policy.

**2.2.** FIC provides support and maintenance services for licensed Software during both implementation and production use when operated on supported platforms installed on designated or approved equipment. Support is currently provided in the English language only.

**2.3.** Subject to Section 5.1.4, maintenance includes any standard Software versions and releases generally made available to FIC’s clients that are current on Maintenance fees. Such versions and releases will be provided to Client pursuant to this policy on a when and if available basis.

**3. TECHNICAL SUPPORT**

**3.1.** FIC will make commercially reasonable efforts, during Product Support Hours, to address Client’s questions about the Software, to resolve operating problems that are attributable to the Software, and to resolve verified, reproducible Errors in the Software.

**3.2.** Client agrees: (a) to set up primary and secondary liaisons who have been trained on the Software; (b) that all support requests will be centralized through the primary and secondary liaisons; (c) to submit support requests to FIC Product Support; (d) to comply with the attached guidelines for submitting support requests; (e) to use commercially reasonable efforts to diagnose and resolve problems in the operation of the Software prior to contacting FIC for support; and (f) to use commercially reasonable efforts to verify that reported problems are due to a malfunction of the Software, and not due to the operating system, hardware, data, interfaces, or improper use of the Software, prior to contacting FIC for support.

#### 4. TERM; TERMINATION; REINSTATEMENT

4.1. FIC's support and maintenance obligations under this policy commence upon shipment of the Software and will continue for an initial term of one year. Maintenance fees will be invoiced on an annual basis in advance. For as long as FIC makes maintenance for the Software generally available to all of its customers, the support and maintenance service will automatically renew for consecutive one-year terms unless Client gives FIC 30 days' written notice, prior to the end of the current term, of its intent not to renew. Support and maintenance during renewal terms will be subject to the Support and Maintenance Policy in effect at the time of renewal. Maintenance fees applicable to renewal terms may be increased by FIC, but no such increase may exceed the most recently available annual change in the CPI. "CPI" means the Consumer Price Index for All Urban Consumers (CPI-U) for the U.S. City Average for All Items, 1982-84=100, as published by the US Bureau of Labor Statistics or three percent (3%) of the amount charged to the Client for maintenance during the preceeding year.

4.2 Client's Option to Terminate Maintenance. Client shall have the right at any time during the Maintenance Period to terminate, without penalty, for any reason provided, however, that Client provides Fair Isaac written notice of its intent to terminate the maintenance terms of this Agreement at least thirty (30) days prior to such date of termination. This Section does not affect Client's right to terminate this Agreement pursuant to Section 8.

Formatted: Indent: First line: 0"

4.32. FIC may terminate support and maintenance services under this policy upon 30 days' written notice if Client is in breach under this policy or any license agreement relating to the Software and does not cure the breach within such 30-day period. FIC will have no obligation to resume support and maintenance services following such a termination for cause.

4.43. FIC ~~will may, at its sole discretion,~~ reinstate lapsed support and maintenance services, in accordance with its then-current policies, upon payment by Client of the applicable reinstatement fee.

#### 5. EXCLUSIONS

5.1. Services outside the scope of this policy are subject to availability of resources and will be charged for separately at FIC's then-current rates for such services. The following services are outside the scope of this policy:

5.1.1. Support services provided outside of Product Support Hours.

5.1.2. Support service that becomes necessary due to failure of computer hardware, equipment or programs not provided by FIC; negligence of Client or any third party; operator error; improper use of hardware or software (including the Software); ~~any problem or loss not solely attributable to the Software~~; problems stemming from Client not applying all required maintenance releases; or problems due to unauthorized modification or adaptation of the Software by Client.

5.1.3. Development, customization, coding, installation, integration, consulting and training.

5.1.4. Optional, separately-priced Software features that may, from time to time, be made available by FIC with new versions or releases of the Software.

5.2 Unless otherwise indicated in the applicable Order Form or license agreement, FIC has no obligation to provide support or maintenance services for other than (a) the current release of the Software and (b) one prior release of the Software, but only for a maximum of one year after release of a subsequent release.

**6. SEVERITY LEVELS AND RESPONSE TIMES.** Upon Client's report of a problem with the Software, an FIC representative will acknowledge such report by issuing a confirmation to Client, either by phone or email, and FIC will assign a Severity Level to the problem based on the type of issue reported, according to the following schedule:

| Severity | Condition                                                                                                                                                                                                                                             | Response Time/Action                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

### Fair Isaac Product Support Problem Submission Guidelines

We encourage clients to first consult the appropriate documentation for the product they are using (installation guides, reference manuals, user guides, product release notes, etc.). Release notes will typically include contents of the release, installation/license information, known limitations, product support, and compatibility information. Other reference materials should also be consulted as needed for related components such as database management systems, compilers, operating systems, etc. For Fair Isaac products with web-based self-service, visit the support web site to search for known questions, solutions and technical notes.

If you've completed this initial research and are still unable to resolve your problem, the next step is to contact Product Support. The following information is critical to resolving a problem:

- Your client ID (a 4-digit number communicated to you either by your Engagement Manager or during your first contact with Product Support) or license number (if applicable).
- Your phone number and email address
- The name and version of the Fair Isaac software to which the issue pertains. For incidents submitted via email, please be sure to include the **product name** on the subject line of the email.
- The name and version of the operating system and database.
- The environment in which the error is occurring (development, test or production).
- Both a general statement and a detailed description of the problem, including any relevant error messages.
- Frequency with which the condition occurs and at what intervals.
- Can the problem be replicated, and if so, the steps taken to recreate the problem.
- Any changes that may have been made to the environment (for example, maintenance work that may have been performed or any hardware/software changes made to the server, workstation, operating system, or data feed).
- Any changes to the Fair Isaac application, including new configuration or software upgrades.
- Copies of the Fair Isaac product log files, configuration files, and screen prints of errors.

#### Troubleshooting Tips:

- Isolate the problem as precisely as possible using debugging facilities and error logs as appropriate, and try to find a consistent way to reproduce it.
- Whenever possible, modify a Fair Isaac provided example or test case to cause the same problem.
- If the problem is not consistently reproducible, check whether it may be related to insufficient memory, memory leaks, search paths, or files that may be missing from certain directories or the class path.
- Verify that the versions of the database, compilers, operating system, browser, drivers, etc. that are in use are certified and supported by Fair Isaac.
- Identify any other changes that may have occurred in your environment that may have an impact on the Fair Isaac solution (for example, database maintenance, service pack deployment, upgrade of a system component, operating system patches, etc.)
- Try to reproduce the problem on another platform or test system.
- If applicable, try to isolate various components of your solution to simplify the troubleshooting (for example, pull out a subset of rules or code from the bulk of your application). Support can assist you best if we get a small sample of your application to work with. If possible send us a small test case with instructions, so we can run the test case.
